

## Erk Brudi

Tree Consult - Brudi & Partner  
Baumsachverständige, Germany

Hosted by:  
Canadian Urban Forestry Conference 2004

Facilitated by:  
ArborMaster Training Canada Inc.

# Engineering Based Hazard Tree Assessment

*October 19, 2004  
Kelowna, BC*

Erk Brudi from Brudi and Partners (Germany) will be presenting engineering based statics Integrated Assessment methods of tree risk determination. The history and development of this technique will be discussed, explained and practically demonstrated. This seminar was delivered with huge success in Canada only once in late 2003 in Grimsby, ON. Don't miss this excellent opportunity for learning in Western Canada.

*Some comments from  
past participants of  
this seminar . . .*

“This is great material!”

“The seminar was insightful & gives you a good look at new techniques & practices.”

“Excellent content, recommend to anyone with advanced arboriculture knowledge.”

“Excellent program, very interesting.”
